

Appln. No. 10/053,304

Filed with Amendment and Response dated June 22, 2006

Reply to Office Action of December 22, 2005

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of : David P. Vellante, et al.
Serial No. : 10/053,304
Filed: : November 7, 2001
For: : Method for Assessing the Business Value of Information
Technology
TC/AU : 3639
Examiner : Fadey S. Jabr
Attorney Docket No. : ITC 2-002

HONORABLE COMMISSIONER FOR PATENTS
MAIL STOP AMENDMENT
P.O. BOX 1450
ALEXANDRIA, VA 22313-1450

PETITION UNDER 37 C.F.R. 1.183

Sir:

A declaration and power of attorney signed by all the inventors, David P. Vellante, Edward Gershenson, David A. Floyer, and Leonard F. Swec, was submitted for the above-identified application in response to a Notice to Filing Missing Parts. Also submitted was an assignment of all the inventors' interests to ITCentrix, Inc., now Barometrix Software Corporation. That assignment is recorded at reel and frame 016670/0697. Copies of the declaration and assignment are attached hereto.

In an Office action dated December 22, 2005, the Examiner noted that the declaration included a deficiency, namely, that of having failed to provide the particulars of the provisional application to which the above-identified application claims priority. David P. Vellante, David A. Flowers and Leonard F. Swec have signed a supplemental declaration correcting this deficiency. A copy of the supplemental declaration is attached hereto.

Pursuant to 37 C.F.R. 1.183 and MPEP § 603(b), applicants David P. Vellante, David A. Floyer and Leonard F. Swec and the assignee, request that the Commissioner waive the requirement for inventor Edward Gershenson to sign the supplemental declaration as he was presented with the supplemental declaration and has refused to sign it.

A check is enclosed for the \$400.00 fee required by 37 C.F.R. 1.17(f) for filing a petition to suspend the rules.

DECLARATION AND POWER OF ATTORNEY
PATENT APPLICATION

As a below-named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name:

I believe I am the original, first and sole (if only one name is listed below) or an original, first and joint (if plural names are listed below) inventor of the subject matter which is claimed and for which a patent application is sought on the invention entitled:

METHOD FOR ASSESSING THE BUSINESS VALUE OF INFORMATION TECHNOLOGY
the specification of which

[] is attached hereto.

[X] was filed on November 7, 2001, as application Serial No. 10/053,304, and was amended on _____.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to the examination of this application in accordance with Title 37, Code of Federal Regulations, §1.56(a).

I hereby claim benefit under Title 35, United States Code, §120 of any United States application(s) listed below, and insofar as the subject matter of each of the claims of the application is not disclosed in the prior United States application in the manner provided by the first paragraph of Title 35, United States Code, §112, I acknowledge the duty to disclose material information as defined in Title 37, Code of Federal Regulations, §1.56(a) which occurred between the filing date of the prior application and the national PCT international filing date of this application:

App'n Serial No.	Filing Date	Status
		(patented, pending, abandoned)

App'n Serial No.	Filing Date	Status

ITCentrix Announces Delivery of its SAN Value Software

STILL RIVER, MA - November 1, 1999 - ITCentrix, a leading developer of innovative IT decision support solutions, today announced it has begun shipping Version 2.0 of the SAN Value Tool. The software announced is a standalone, Windows-based decision support application designed to help IT and Business Professionals assess the business value of a SAN infrastructure. The tool, uses the ITCentrix Value Framework to quantify value in three areas, including:

Cost Savings;

Availability Value;

The Value of Faster Application Deployment.

The software includes an easy-to-use front-end interface complete with online help functions to assist users in applying the Rapid Assessment Methodology developed by ITCentrix. The software presents an "apples-to-apples" business case for a variety of different storage approaches including:

Distributed Storage - outside of a data center;

Collocated Storage - moved into a data center;

Basic SAN - involves rudimentary any-to-any connectivity between servers and I/O;

Enhanced SAN - includes more sophisticated volume and fabric management in addition to other software functions;

Future SAN - is a fully enabled SAN offering with dynamic workload and volume management in addition to a global file system.

The software was developed with inputs from Global 2000 and smaller organizations and contains comparative industry information to allow customers to predict costs and benefits based on such factors as workload and complexity of environment. To develop the software, ITCentrix used its database of storage customers that currently includes more than 300 data points on storage management effectiveness within large and medium sized organizations in the U.S. and Europe.

Commenting on the announcement, Dave Vellante, President of ITCentrix said, "In five months we have gone from proof-of-concept to a fully operational, revenue-producing software tool. Our customers are pushing us to add new function at a fast pace and we're excited about the prospects of not only enhancing this software but applying our framework to new technology areas."

Version 2.0 of the ITCentrix SAN Value Tool currently is available to assess SAN infrastructure in Unix and NT environments with future platforms expected in the first half of 2000.

About ITCentrix

ITCentrix is a pre-IPO software and services company founded in 1999 by leading business and technology experts. The company develops powerful decision support software and complimentary services to help its clients make rapid, high quality decisions in their specific business context. ITCentrix has performed numerous of assessments in Global 2000 and smaller organizations using its proprietary software and Rapid Assessment Methodology to help companies avoid costs, improve service levels and accelerate time-to-market.
